

IT'S HERE!!

Lakeside Logistics is reminding you that ACE is going to be mandatory May 24th, 2007 in Michigan and New York and you should be ready to file your manifests electronically through the internet or be prepared to either be sent to secondary or turned back into Canada.

If you have not already made arrangements yourselves with Customs or if you have not signed on with a company who will perform this function for you, Lakeside can point you in the right direction. Sign into our web site and click on ACE for further direction or contact Goldie Richmond at Lakeside Logistics at 905-338-4023 (800-387-7108).

Remember, ACE replaces the truck manifest you are presently faxing to the Customs Broker. ACE is a direct link to US Customs web site informing them of the same information indicated on the paper manifest. The electronic entry must still be sent one hour in advance of arrival.

"Canadian Trucking Alliance expects the 90 day notice periods will be followed by an as yet undetermined period of "informed compliance." Once that period expires, monetary penalties for non-compliance will kick in and eventually trucks will not be able to enter the US without ACE."
