

Lakeside Logistics

URGENT

Dear Valued Carrier,

Lakeside's Clientele has increasingly commenced joining the CBP (Customs Border Protection) such as C-TPAT/FAST (Customs-Trade Partnership Against Terrorism/Free and Secure Trade) and PIP/CSA (Partners In Protection/Customs Self Assessment).

We are now in the position of having to find C-TPAT/FAST and/or PIP/CSA approved carriers to move FAST/CSA approved freight. Lakeside must now provide Carrier SVI numbers to our C-TPAT approved Customers in order for them to pre-notify the freight we would dispatch to you. Your SVI number is what US Customs refers to as your partnership number. An example would be [parNor03225](#).

We would appreciate your contacting us at your earliest convenience to supply us with your SVI partnership ID.

For those of you who do not know about the FAST program, you may search the following web site for more information and application. Or, contact Lakeside for guidance. Ask for Goldie Richmond and she will walk you through the process.

http://www.cbp.gov/xp/cgov/trade/cargo_security/ctpat/security_criteria/criteria_importers/ctpat_importer_criteria.xml

If we all work together, the CBP initiatives will be that much easier.
