

How much do you know about when the deadline is?

Lakeside has been playing an active roll in keeping Carriers informed of all new procedures with both US Customs, Canadian Customs as well as all new regulations and rules. We have positioned a link directly on our Web site page for the application process to the new UCR replacing the Single State Registration. <http://www.ucr.in.gov/>

As a Carrier doing business in the United States you must be aware of the non renewal of the Single State Registration in December of 2006. It was decided by the Federal Government that there need be one single registration for all States but they were unsure of what it should be until now.

The new **Unified Carrier Registration (UCR)** has an anticipated deadline for registration of November 15, 2007. After this date the US DOT will begin enforcement. Some states have been noted as saying they may begin earlier.

Be informed and be prepared. Fines can be in excess of \$30,000.00.

Trucks and trailers are all considered when counting units now.

1-2 units	\$39.00	3-5 units	\$116.00
6-20 units	\$231.00	21-100 units	\$806.00

Brokers, Freight Forwarders and Leasing Companies must pay a flat fee of \$39.00 unless they also act as a Motor Carrier.

US Carriers can apply on line using a credit card. Canadian Carriers must down load the PDF to complete and forward it with a cheque in the full amount.
